

PLASTER SAND
OLY #1™ AND OLY #2™

The Original Oly #1™ and Oly #2™

That's right! Graniterock has been supplying Northern California since the 1970s with the only remaining source of true Oly #1™ and Oly #2™ sand. If the Oly sand you are currently receiving is not from Graniterock, then it's not the original you've come to appreciate. Graniterock is the last and only supplier to harvest material from the Olympia Formation in Santa Cruz County. To receive the same sand, we encourage you to buy direct from Graniterock. Oly #1™ and Oly #2™ are ideal for sports fields, plaster, concrete, fill and utility applications. We have our own trucks and can provide prompt and courteous delivery service.

Sand

Graniterock offers a wide range of sand products. From Utility Trench Sand to Plaster and Golf Course Sands, we have the perfect sand product for your job. Contact your local Graniterock location for more information.
